

d = default, dm = default(mod), nd = not default

Category	Key	^	Effect
VAB/SPH Controls	S	d	Rotate part up
	W	d	Rotate part down
	A	d	Rotate part left (flat)
	D	d	Rotate part right (flat)
	Q	d	Rotate part left
	E	d	Rotate part right
	Shift + W/S/A/D/Q/E	d	Rotate parts in 5° instead of 90° steps
	` (back quote)	d	Search part
	Delete	d	Delete selected part
	L	dm	Toggle day/night mode & part lights (LightsOut)
	U	dm	Toggle all part lights (LightsOut)
	1	d	Place Mode
	2	d	Offset Mode
	3	d	Rotate Mode
	4	d	Root Mode
	5	dm	Part Scale Mode (TweakScale)
	6	dm	Open RCS Build Aid
	I/J/K/L/H/N	dm	Visualize RCS (RCS Build Aid)
	LeftCtrl (hold)	dm	Override "match node size (TweakScale)
	M	dm	Toggle "match node size (TweakScale)
	F	d	In Place mode: Toggle Symmetry between vessel or parent part
	F	d	In Offset mode: Toggle between absolute or load centered offset
	F	d	In Rotate mode: Toggle between absolute or relative rotation
	Ctrl + Z	d	Undo last action
	Ctrl + Y	d	Redo last action
	LeftAlt (hold)	d	Disable surface attach/exclusively use node attach
	Shift + Left-click	d	Move the entire ship
	Control + Left-click	d	Toggle part for snap and show part name
	LeftAlt + Left-click	d	Duplicate part or assembly in VAB
	Page Up/Down	d	Scroll view up/down
	Scroll Wheel	d	
	R	d	Toggle Symmetry Method between mirror or radial
	X	d	Cycle symmetry settings (next)
	Shift + X	d	Cycle symmetry settings (previous)
	C	d	Toggle Angle Snap: next
	Shift + C	d	Toggle Angle Snap: previous
Editor Extensions Redux	LeftAlt + Shift + Left Click	dm	Strip symmetry from part
	V	dm	Vertically center part
	H	dm	Horizontally center part
	U	dm	?
	T	dm	Toggle surface/node attachment mode
	Alt + Z	dm	Toggle part clipping
	Space (no part selected)	dm	Reset camera pitch & heading
	In Offset Mode, open EEX > Fine Adjustments, ↑/↓/←/→/Rshift/Rctrl	dm	Move or Rotate part

Category	Key	^	Effect
Flight – System Settings	F1	d	Screenshot
	F2	d	Toggle UI visibility
	F3	d	Toggle results screen
	F4	d	Toggle ship labels & docking target/distance indicators
	F5	d	Quicksave
	RightShift + F5	d	Quicksave (choose name)
	F6	d	Previous action set
	F7	d	Next action set
	F9 (Hold)	d	Load quicksave
	RightShift + F9	d	Load a specific quicksave
	F10	d	Toggle temperature gauges
	RightShift + F10	dm	Open Contract Configurator window
	F11	d	Toggle temperatures overlay
	F12	d	Toggle aerodynamic forces overlay
	LeftAlt + F12	d	Debug/cheat menu
	Escape	d	Pause Menu
Flight Controls	F (Hold)	d	Invert SAS state
	C	d	Toggle IVA view
	V	d	Toggle camera view (auto/free/orbital/chase)
	` (back quote)	d	Reset camera
	\	d	Toggle camera movement with mouse
	LeftAlt + . (period)	d	Forced time warp increase (Physical time warp)
	LeftAlt + , (comma)	d	Forced time warp decrease (Physical time warp)
	/	d	Stop time warp
	- (minus)	nd	Toggle navball
	]	d	Focus through ships (next)
	[	d	Cycle through ships (previous)
	1-9, 0	d	Activate custom action group 1-10
	LeftAlt + W/S/A/D/Q/E	d	Trim pitch/yaw/roll
	LeftAlt + X	d	Reset trim
	Right-click	d	Open part info window
	LeftAlt + Right-click	d	Open multiple info windows for fuel transfer
	LeftAlt + N	dm	Toggle maneuver node gizmo
Map	Tab	d	Cycle focus in orbital map
	Shift + Tab	d	Reverse cycle focus in orbital map
	` (back quote)	d	Reset focus in orbital map
EVA Controls	W	d	Walk/jetpack forward
	S	d	Walk/jetpack backwards
	A	d	Walk/jetpack left
	D	d	Walk/jetpack right
	R	d	Toggle jetpack
	Q	d	Jetpack rotate left
	E	d	Jetpack rotate right
	Left-Shift	d	Jetpack up
	Left-Control	d	Jetpack down
	Left-click and drag left	d	Jet counter clockwise
	Left-click and drag right	d	Jet clockwise
	Left-click and drag up	d	Pitch down by jet
	Left-click and drag down	d	Pitch up by jet
	Space	d	Jetpack - Reorient camera
	Space	d	Jump
	LeftShift (hold)	d	Run
	F	d	Use part
	F	dm	Toggle desire to grab ladder (Easyboard)
	I	d	Toggle EVA Construction Mode
	B	d	Board
	B	dm	Toggle desire to board (Easyboard)
	U	d	Toggle lights
	O	d	Toggle helmet
	P	d	Deploy parachute
	Shift + (W/S/A/D) + Space	d	Jump to different directions when on ladders
